

IV PROGRAMA DE VISITAS PARA BECARIOS FULBRIGHT

GRADUATE RESEARCHERS

First Name	Last Name	Home Institution	Field	Grant Project	Host Institution
Pacia	Diaz	University of South Florida	Engineering	A Lesson in Resilience: Challenges and Responses to Climate Change in the Iberian Peninsula	Universidad Autónoma de Barcelona
Robert (Sean)	Fitzpatrick	Eckerd College	Natural Resources & Environmental Sciences	Climate change impacts on the ecology of invaded seagrass ecosystems in the Mediterranean	Instituto Mediterráneo de Estudios Avanzados (Mallorca)
Nadiya	Klep	Clemson University	Engineering	Modification of Alumina Nanoparticles and Development of Biocompatible Nanocomposites	Universidad Carlos III de Madrid
James	Knight	Yale University	Biological Sciences	The Role of IGF-I in Alzheimer's Disease	Instituto Cajal (Madrid)
Scott	Leary	University of Alabama - Tuscaloosa	Medical Sciences	Modulation of cellular micro RNAs as a therapeutic strategy for the cure of HIV infection	Hospital Universitario Ramón y Cajal (Madrid)
Ana	Martin-Ryals	University of Illinois at Urbana-Champaign	Engineering	Sustainable Post-Treatment of Anaerobically Treated Wastewater for Water Reuse	Universidad de Barcelona
Natalie	Saenz	Princeton University	Chemistry	Ferritin as a Photocatalyst for Biomass Oxidation	Universidad de Granada
Michael	Sikorski	University of Maryland at College Park	Engineering	Evaluation of new autologous epidermis-dermis-hypodermis trilayer skin substitutes	Universidad Carlos III de Madrid
Caitlin (Kay)	Watt	University of California, Davis	Agricultural Sciences	Chickpea Drought Tolerance: An Intersection of Biodiversity and Traditional Farm Knowledge	Universidad de Córdoba
